Designer	Vismara / Mills Design
Year	2018
Category	Sail
New or Used	New
Sale Status	Available
Price	€1,500,000
Tax/VAT Status	Tax not paid
Lying	Viareggio, Italy
Reference	1267375

Specifications

LOA	19m
LWL	16.83m
Beam	5.3m
Draft	2.8m
Displacement	18000kg
Engine	Yanmar 110hp
Engine Hours	0
Fuel	diesel
Fuel Capacity	600l
Hull Construction	Carbon Fibre & Epoxy Sandwich
Keel Type	Fin Keel
Berths	9
Cabins	4
Drinking Water Capacity	500l

Description

"Time is the most precious commodity, something that can never be replaced. Spend more time on the water with Vismara Prêt-à-Porter"

The Prêt-à-Porter Concept

Vismara believe their yachts should reflect the Prêt-à-Porter principle. A yacht that should be quite literally 'ready to wear'. Owners should be gifted the opportunity to have exactly the yacht they want, the freedom to go where they want, but should face the minimum of distractions in getting there.

The Vismara Prêt-à-Porter range adopts design solutions developed and refined over 30 years along with the very latest in efficient construction techniques to create easily-customisable fast cruising yachts with a refreshingly clear, quick and simple 4-step ordering process.

- Choose your hull colour & deck finish – Bianco Avorio, Grigio Titanio or Blu Navy hull colours and Bianco Avorio or Burma Teak deck finishes
- Choose your cabin layout – 16 four-cabin configurations are available
- Choose your interior finish - Paint & Carbon Fibre or Wood & Carbon Fibre
- Choose your equipment configuration – Easy Sailing', 'Luxury' or 'Race'

And that's it... With many hundreds of possible variations*, the Vismara owner will receive their yacht ready to sail away from the dock, unique to their desires, complete with all necessary equipment, and all for a guaranteed fixed price from just Euro 1,500,000* that even includes launching and commissioning*.

V62 Features

- After the huge success of the Vismara V62 Mills-designed SuperNikka, the Vismara design team presents the new Vismara V62 Mills Prêt-à-porter. A fast cruiser developed directly from SuperNikka and continuing the Prêt-à-porter 'ready to wear' series production approach developed for the Vismara V50 Prêt-à-porter offering a multitude of pre-designed options coupled to three comprehensive specification levels with clear and simple fixed prices

- Transferring to new yachts the same technologies developed in more than 30 years of research and development, from regattas to fast cruises Vismara's research is aim to give sailors the right to go cruising as fast as the competition racer without compromises to comfort or safety.
- The new Vismara V62 Mills Prêt-à-porter has the same design of the major sister in the bow and stern sections. The sail plan, consisting of 226 mq, is designed to ensure great performances, with easy handling. Her hull, rigging and deck equipment are all tuned for comfortable sailing at sea.

Construction Overview

The hull is build using a female mould. Vismara's philosophy of lightness is the core of this 62ft cruiser racer yacht. Constructed from a combination of fiberglass or carbon sandwich, vacuumed with epoxy resin, she is both extremely strong and secure. The hull, deck and bulkheads undergo a postcuration process at controlled temperature according to supplier's technical sheets at no more than 60°. Structural reinforcements are laminated using unidirectional carbon fibres. The deck is a laminate of carbon fibre for ultimate strength,light weight and durability.

Equipment configurations
